Saved By The Dragon

Callie was fresh out of high school and instead of spending her summer working and hanging out with friends, she was made to go help an Aunt she had never met on the other side of the country. She was trading in her waitressing job, for one in an antiques shop, something she knew nothing about. While Callie wished that her time in Oregon would be quick and she could return to her normal life, her destiny was there.

Andre is a friend of the family and has his own interest in the new girl in town. He has business dealings with the family and the wealthy business owner is different than most successful entrepreneurs. **He had a family secret that may take away his chance at his new desire, Callie.** The mysterious man is willing to chance it all and when the two finally touch, he knows that she is the one.

Callie was going to find out how much their lives were aligned, as well as how different her new life was going to be with the dragon shifter. **Will her new love and attraction for the man save her from another secret in her past or is Callie merely there to end a decades old family feud with her own life?**

Double Dragon

Shae is the typical type A personality that can be found at most colleges around the country. She had a plan that did not involve much else than her studies and the many jobs needed to cover rising tuition hikes. Her life was busy and full, but there was something missing that she did not even know she needed.

Caspian was different, his search was specific and he knew exactly what he was looking for. He was looking for his mate, to be shared with his other dragonkin partner. He sat perched on a hillside because an old woman had promised him that his long wait was over. When he hears a scream, he knows that the woman who needs saving, is the one he has spent a decade waiting for.

Shae feels an instant connection to her savior and things get hot between the two of them almost immediately. It is only when Cass starts talking of a third and dragons that she realizes that she is way in over her head. **Will Shae be able to handle the new twist life has given her or will she yearn for the driven life that she was used to? Can she really let go?**
