## We'll Never Be Apart By Emiko Jean

Murder.

Fire.

Revenge.

That's all seventeen-year-old Alice Monroe thinks about. Committed to a mental ward at Savage Isle, Alice is haunted by memories of the fire that killed her boyfriend, Jason. A blaze her twin sister Cellie set. But when Chase, a mysterious, charismatic patient, agrees to help her seek vengeance, Alice begins to rethink everything. Writing out the story of her troubled past in a journal, she must confront hidden truths. Is the one person she trusts only telling her half the story? Nothing is as it seems in this edge-of-your-seat psychological thriller from the debut author Emiko Jean.

## Editorial Review

From School Library Journal

Gr 9 Up—Alice Monroe has been sent back to the mental facility on Savage Isle. This time around, she carries physical scars to match her emotional ones. Her boyfriend Jason died in a fire while attempting to help her escape the hospital the last time she was a patient. Now her scars ache, in particular during her one-on-one sessions with the overly concerned Dr. Goodman or while she is near the irreverent loner Chase Ward. Alice's biggest cause for concern is Celia, her pyromaniac twin sister, who is locked in the neighboring D wing just a few miles away. "Cellie" is the one who started the fire that killed Jason and burned Alice. The only way to stop her? Alice will have to find a way out again and vanquish her once and for all. This story, one part mystery and two parts psychological thriller, also gives a substantial amount of time to the development of a romance between the roguish Chase and the isolated protagonist. The work is fleshed out by supporting characters like Amelia, Alice's punkish roommate, who proves to be just as dynamic and interesting as the main characters. Perhaps a little predictable at times, the plot and its conclusion will be guessed by savvy teens. In spite of this, Alice proves to be a compelling narrator worthy of her audience's attention. VERDICT A good secondary title for collections in need of YA intellectual thrillers with strong female protagonists.—Ryan P. Donovan, Southborough Public Library, MA

## Review

"Realistic characters make good use of a gothic setting that will attract anyone with a taste for the edge."

—**Kirkus**

"A clever psychological thriller that had me holding my breath to the bitter end. More please!"

—**Kimberly Derting, author of the *Body Finder* series**

"Engaging and twisted, Emiko Jean's WE'LL NEVER BE APART will draw you in and leave you reeling. An intimate study of damaged people, the pain they're in, and the havoc they wreak."

—**Kendare Blake, author of *Anna Dressed in Blood***

"I love a wild psychological ride—and Emiko Jean elevates the genre with this taut, provocative thriller. Jealously, violence, and revenge are the sharp corners of a novel that holds at center themes of loss, love, and the warm, beating heart of human connection. Alice and Celia are fascinating as twins whose personae play out along a rich dynamic of entrapment, suspicion, trauma, and alienation—and raise always-intriguing issues of sisterhood, duality, and how existing as a double is also a splintering of self. A killer debut!"

—**National Book Award finalist Adele Griffin**

"Haunting and gripping, WE'LL NEVER BE APART is a twisty, thrilling debut that kept me completely riveted. I can't wait to read whatever Emiko Jean writes next!"

—**Megan Miranda, author of *Fracture***

"Taut and disquieting, WE'LL NEVER BE APART will unsettle you long before it pulls the rug from under your feet. Like the institution that Alice and Cellie call home, this book comes with a warning: Once inside, be careful who you trust."

—**Kat Rosenfield, author of *Amelia Anne is Dead and Gone***

About the Author

**Emiko Jean's** work with children in foster care inspired her debut novel, *We'll Never Be Apart*. Aside from reading and writing, Emiko is passionate about bugs. She can often be found in the remote forests of the Pacific Northwest, where she lives with her husband, hunting giant moths and cataloguing rare insect colonies.
