Hanser: Community Corrections 2e

Offering comprehensive coverage with an applied, practical perspective, *Community Corrections, Second Edition* covers all the major topics in the field while emphasizing reintegration and community partnerships and focusing strongly on assessment, risk prediction, and classification. Author Robert D. Hanser draws on his expertise with offender treatment planning, special needs populations, and the comparative criminal justice fields to present a complete assessment of the issues and challenges facing community corrections today. Insights into how the day-to-day practitioner conducts business in community corrections are illustrated by such things as the increasing role technology plays in the field.

Lutze: Professional Lives of Community Corrections Officers

One of the first contemporary works to bring together research focused on community corrections officers, *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry*, by Faith E. Lutze, helps readers understand the importance of community corrections officers to the success of the criminal justice system. The author brings the important work of these officers out from the shadows of the prison and into the light of informed policymaking, demonstrating how their work connects to the broader political, economic, and social context. Arguing that they are "street-level boundary spanners" who are in the best position to lead effective reentry initiatives built on interagency collaboration, the author shows how community corrections officers can effectively lead a fluid response to reentry that is inclusive of control, support, and treatment. This supplement is ideal for community corrections or probation and parole courses to supplement core textbooks.
