Editorial Review

Review

"DISCOVERING COMPUTERS offers students a basic understanding of computers that they can take with them once this course is completed. The most important thing to me is being able to teach the most current information about computers because computers are used EVERYWHERE! DISCOVERING COMPUTERS offers up-to-date information and provides my students with the basic understanding of computers that they need to be successful in their future."

About the Author

Gary B. Shelly wrote and published his first computer education textbook in 1969. More than twenty million copies of Shelly Cashman Series' textbooks have been sold. Gary and a talented group of contributing authors have produced books on computer programming, computer concepts, and application software that are the leading textbooks in the computer technology market today. Gary has hosted the annual Shelly Cashman Institute, a week-long training event focusing on the latest topics in technology, for the past 34 years.

Misty E. Vermaat has more than 25 years of experience in the field of computer and information technology. In addition to consulting in the field, she was an Associate Professor at Purdue University Calumet, teaching or developing Microsoft Office, computer concepts, database management, systems analysis and design, and programming courses. Since 1990, Ms. Vermaat has led the development of the Shelly Cashman Series and has written or co-authored numerous Series textbooks, including many editions of DISCOVERING COMPUTERS, DISCOVERING COMPUTERS FUNDAMENTALS, and Microsoft Word books.

Users Review

From reader reviews:

Priscilla McCreary:
