### The Whisperers (Charlie Parker, Book 9) By John Connolly

*“Oh, little one,’ he whispered, as he gently stroked her cheek, the first time he had touched her in fifteen years. ‘What have they done to you? What have they done to us all?’ ”*

In his latest dark and chilling Charlie Parker thriller, New York Times bestselling author John Connolly takes us to the border between Maine and Canada. It is there, in the vast and porous Great North Woods, that a dangerous smuggling operation is taking place, run by a group of disenchanting former soldiers, newly returned from Iraq. Illicit goods—drugs, cash, weapons, even people—are changing hands. And something else has changed hands. Something ancient and powerful and evil.

The authorities suspect something is amiss, but what they can’t know is that it is infinitely stranger and more terrifying than anyone can imagine. Anyone, that is, except private detective Charlie Parker, who has his own intimate knowledge of the darkness in men’s hearts. As the smugglers begin to die one after another in apparent suicides, Parker is called in to stop the bloodletting. The soldiers’ actions and the objects they have smuggled have attracted the attention of the reclusive Herod, a man with a taste for the strange. And where Herod goes, so too does the shadowy figure that he calls the Captain. To defeat them, Parker must form an uneasy alliance with a man he fears more than any other, the killer known as the Collector. . . .

## Editorial Review

From Publishers Weekly

Starred Review. Ancient artifacts and the second Iraqi War provide the backdrop for Connolly's outstanding ninth novel featuring PI Charlie Parker (after *The Lovers*). When the former NYPD homicide detective looks into the suicide of an Iraq war veteran, he discovers that several members of the soldier's unit have also killed themselves and that they may have been involved in smuggling looted treasures into the U.S. Parker begins to fear that the returning soldiers have brought back more than their own personal demons. As he races to find an antique golden box before it falls into the wrong hands, Parker discovers that he's being shadowed by the enigmatic Collector, a repulsive killer whose nature is as problematic as that of Parker himself. Connolly displays a real knack for fusing the detective and horror genres, providing a rational chain of evidence and deduction for the plot while simultaneously creating a real atmosphere of numinous dread that reminds us that mystery can refer to more than a mundane tale of crime and human justice.

## Review

Supernatural thriller by Dublin's finest. \* *Herald Magazine* \* His latest plot is a clever mixture of quest and chase, written in prose that unfolds at warp speed \* *Observer* \* As ever with Connolly, the macabre narrative is couched in prose that is often allusive and poetic. \* Barry Forshaw, *Independent* \* Connolly subtly combines the supernatural with the traditional crime story to superb effect. And in *Herod*, a man being eaten by cancer, he may have created his creepiest villain yet. \* *Sun* \* This is one of Connolly's darker, scarier novels, all the more effective for the way the supernatural elements arise organically out of the realistic detail \* *Guardian* \* Another creepy thriller from a modern master. \* *Daily Mirror* \* Brilliant, terrifying and effortlessly seductive, I defy anyone to put this thriller down - it is sensational. \* *Daily Mail* \* A tour de force finale in a book which will surely be a bestseller this summer. It well deserves to be. \* *Independent on Sunday* \*

## About the Author
