Computer Ethics: A Global Perspective By Giannis Stamatellos

The rapid advancement of information technology in modern societies affects the way we live, communicate, work, and entertain. Computers and computer networks formulate an information age in which traditional ethical questions are re-examined and new questions arise concerning moral standards for human behavior. *Computer Ethics: A Global Perspective* presents a clear and concise introduction to the ethical and social issues sparked by our ever-growing information society at the local and global level. Designed for use as a main text in undergraduate and graduate courses that focus on computer, business, and applied ethics, the text is also ideal for the Information Technology in a Global Society course for the International Baccalaureate diploma. The text considers the impact of digitized information on individuals and societies and includes discussions on privacy, reliability, security, intellectual property, control, equality of access, and authenticity, with insights from the scientists and philosophers who have attempted to evaluate, explain, and resolve these issues. The text also discusses the social impact of information technology in different areas of human life such as business, health, education, entertainment and politics.

Editorial Review

Users Review

From reader reviews:

Alex Lynch:

Do you have favorite book? Should you have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each book has different aim or perhaps goal; it means that publication has different type. Some people really feel enjoy to spend their time and energy to read a book. They can be reading whatever they have because their hobby will be reading a book. Consider the person who don't like reading through a book? Sometime, man feel need book if they found difficult problem as well as exercise. Well, probably you will need this Computer Ethics: A Global Perspective.

Mike Yerkes:

Here thing why this specific Computer Ethics: A Global Perspective are different and trustworthy to be yours. First of all reading through a book is good but it depends in the content of computer which is the content is as delightful as food or not. Computer Ethics: A Global Perspective giving you information deeper since different ways, you can find any guide out there but there is no reserve that similar with Computer Ethics: A Global Perspective. It gives you thrill examining journey, its open up your own personal eyes about the thing in which happened in the world which is perhaps can be happened around you. You can bring everywhere like in park your car, café, or even in your approach home by train. For anyone who is having difficulties in bringing the imprinted book maybe the form of Computer Ethics: A Global Perspective in e-book can be your choice.

Jose Wilson:

Reading can called head hangout, why? Because if you find yourself reading a book especially book entitled Computer Ethics: A Global Perspective your mind will drift away trough every dimension, wandering in each and every aspect that maybe unidentified for but surely will become your mind friends. Imaging just about every word written in a book then become one contact form conclusion and explanation in which maybe you never get ahead of. The Computer Ethics: A Global Perspective giving you a different experience more than blown away the mind but also giving you useful data for your better life within this era. So now let us present to you the relaxing pattern is your body and mind will be pleased when you are finished studying it, like winning a sport. Do you want to try this extraordinary shelling out spare time activity?

Logan Merritt:

Reading a guide make you to get more knowledge from this. You can take knowledge and information from your book. Book is prepared or printed or outlined from each source which filled update of news. With this

modern era like currently, many ways to get information are available for a person. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, new and comic. You can add your understanding by that book. Ready to spend your spare time to spread out your book? Or just searching for the Computer Ethics: A Global Perspective when you required it?
