Critical Animal Studies: Thinking the Unthinkable From Brown Bear Press

Engaging and passionate, this contemporary work provokes new ways of thinking about animal-human interaction. A cutting-edge volume of original essays, *Critical Animal Studies* examines our exploitation and commodification of non-human animals. By inquiring into the contradictions that have shaped our understanding of animals, the contributors of this collection have set out to question the systemic oppression inherent in our treatment of animals. The collection closes with a thoughtful consideration of some of the complexities of activism, as well as a discussion of how to further the progress of animal rights. Analyzing economic, ethical, historical, and sociological aspects of human-animal relations, this interdisciplinary volume is a must-read for all upper-level students in animal studies, critical animal studies, animals and society, and anthrozoology courses.
