**Missy the Werecat** By P. G. Allison

### **Missy the Werecat: Book I**

When puberty brings on her first Shift, Missy goes into the mountains for two years until finally learning to Change back. She can Change from fully human in one instant to a mountain lion in the next. Everyone assumes her two year disappearance was because she'd been kidnapped by a sexual predator that she managed to kill. She keeps her werecat nature a secret.

There is no pack, no pride of other werecats and no alpha. She's a girl with fantastic abilities growing up and learning to do great things in today's world, amongst humans. She only has her instincts to guide her and those drive her to train herself to extremes. She must control those instincts; dampening the wild predator is often necessary. Her raging hormones and enhanced senses require very strong controls; she explores what happens when those controls are relaxed.

## Editorial Review

Review

- **Goodreads: over 1,000 four star and five star ratings for this series!**
- **"I have enjoyed all of the Missy books. There are 5 in all so far and it is always exciting. She gets into lots of trouble but always seems to be on the good end of things at the end. She is a strong heroine but also likes to help others so even when she is making trouble, it's usually for the bad guys. She is getting less shy and more developed as a person/cat as the books progress. I love these stories!" Amazon**
- **"This is the first review for this series. As soon as I read one, I wanted to read the next. This is the best series I have read in years ... I hope there are more books coming soon. There are plenty of surprises in each book." Amazon**
- **"Entertaining and fast paced. I appreciate that we do not have to suffer through another characters' angst over their abilities. She is what she is and she celebrates it. Her desire to be not just an officer, but the best possible officer she can be is laudable and refreshing. Her drive to succeed at whatever she tries is not gender based - just Missy in action. I look forward to the next installment - after all, reading is for entertainment and this author provides it in spades!" Amazon**
